Quick tips

Toolbar
It's at the bottom of your screen, with stickies, stamps, and anything you need.

Move and Zoom
Holding Spacebar, use the hand tool to pan around. Zoom controls are in the top right corner.

Spacebar

Work with your team
FigJam's better with others. Click the **Share** button above to invite your team.

Wireframe tools

Stickies
Press "S" to quickly add a sticky to the canvas.

S

Rectangles
Press "R" to quickly place a rectangle onto the canvas. Other shapes can be selected from the toolbar or swapped from the shape menu.

R

Copy and paste
Copy and paste from FigJam to Figma and vice-versa. Bring your diagrams into your design file, or bring your designs into FigJam for a crit with the team!

⌘ C + ⌘ V
Mac

ctrl C + ctrl V
Win

Export
Export your entire file, or your selection as an PNG, JPG or PDF. You can even export your stickies as a CSV file to bring them into other tools.

⌘ + shift + E | ctrl + shift + E
Mac Win

Website Wireframe

A website wireframe is a mockup of a website. Following these steps will help build out a map of the navigation and main points of a new website design while adding in visual and interactive elements

How to use this template

1. Briefly describe the goal of your website.
2. Start with your header and main navigation at the top.
3. Add a hero section. What does your website showcase?
4. Add additional sections and alternate the look and feel. Feature collections, an image gallery, or a content feed.
5. Wrap it up with your footer. Make sure to include a "Subscribe Now" opt-in box for email and any page links that you did not include in the main nav.
6. Incorporate other elements or sections with the main goals for your website in mind.
7. Collaborate with your team
